## ABOUT THE SEMINAR

India has one of the largest systems of education in the world offering facilities of education and training in almost all aspects of human creativity and intellectual endeavour. A major development since the last Education Policy 1986 has been the Right of Children to Free and Compulsory Education Act, 2009 which laid down legal underpinnings for achieving universal elementary education. For higher education it proposes a four year Multi-Disciplinary Bachelor Degree with multiple entry & exit options. The policy emphasizes the importance of high-quality teacher education. It aims to initiate several systemic reforms to encourage bright and talented young minds to take up the teaching profession.
